PAGE SELECTION

This is where you choose which page you want to edit. You can also change which site you are editing. Open a page for editing by pressing the appropriate Edit button. It will be copied from the server and you will be editing that copy. Modified pages may be published (which updates the copy on the server) and editing closed by pressing the appropriate Publish button.

Pages You Can Edit On Site: Site setup by Demonstration Setup (demosite)
Your author name is: demoauthor
